

Advancing Health Center Value By Strengthening PCA & HCCN Capacity

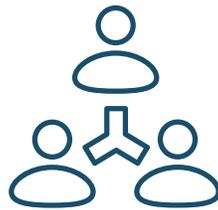

Primary care associations (PCAs) and health center controlled networks (HCCNs) are leading strategic efforts to support and guide health centers through payment and delivery reforms intended to advance the health center mission. NACHC, in collaboration with key experts in the health care transformation space, offers several learning opportunities to support PCAs and HCCNs as they engage health centers in value-based strategies.

QUALITY CENTER

NACHC's **Quality Center** works to advance the Quadruple Aim goals of improved health outcomes, improved patient and staff experience, and lower costs through its Value Transformation Framework. The Center's resources include: action guides that distill subject-specific best practices; trainings; a quality coach self-assessment tool; and facilitated transformation projects across the country.

For PCA, HCCN and health center staff

PEER LEARNING

These **Payment & Delivery Reform Peer Learning Groups** provide a structure for PCAs and HCCNs to access the collective knowledge of their peers on priority topics ranging from managed care contracting to FQHC APM development, and share common barriers and troubleshoot solutions for advancing value-based care.

Open to all PCAs and HCCNs, all levels of experience welcome

ANNUAL SUMMIT

The **Payment & Delivery Reform Summit** brings PCAs and HCCNs together for both a high-level discussion of major trends as well as in-depth peer learning to help PCAs and HCCNs navigate multiple opportunities, weigh options, and fine-tune their value-based strategies.

Open to all PCAs and HCCNs, all levels of experience welcome

DELTA CENTER

The **Delta Center for a Thriving Safety Net** aims to inspire innovation in value-based care and payment by building the capacity of PCAs and Behavioral Health State Associations (BHSAs).

ACO ACADEMY

The ACO Academy focuses on the critical elements for successful participation in both informal and formal accountable care organizations (ACOs). This training helps PCA, HCCN, and health center leaders develop a deeper understanding of how to become more responsible for the total cost of care and demonstrate value through practical examples and applications.

FQHC APM ACADEMY

The FQHC APM Academy guides a small cohort of state teams through the process of developing or enhancing a value-based FQHC Alternative Payment Methodology APM (FQHC APM) in Medicaid. Teams participate in structured discussions, both face-to-face and via an interactive online platform, and are also connected to industry experts.

PRAPARE TRAIN-THE-TRAINER ACADEMY

The PRAPARE Train-the-Trainer Academy helps PCAs and HCCNs build capacity to assist health centers in implementing PRAPARE, a standardized tool to collect patient-level data on the social determinants of health. The Academy also covers how to use PRAPARE data to inform state policy, payment reform, and delivery system transformation initiatives.

Open to All:

Quality Center This is a NACHC-led effort. Target audience: PCA, HCCN and health center staff Partner Organizations: Centers for Disease Control & Prevention, Bureau of Primary Health Care To learn more: Visit bit.ly/nachcqualitycenter	Payment & Delivery Reform Peer Learning Groups This effort is made possible with support from HRSA. Target audience: Any and all PCAs and HCCNs are encouraged to join, all levels of experience with value-based health care are welcome To learn more: Contact NACHC's State Affairs Department at state@nachc.org	Payment & Delivery Reform Summit This annual summit is made possible with support from HRSA. Target audience: Any and all PCAs and HCCNs are encouraged to attend, all levels of experience with value-based health care are welcome To learn more: Contact NACHC's State Affairs Department at state@nachc.org
